Cookie S-Band Antenna (Model: INST-15)

The I-Fuze S-Band antenna features small size, light weight, and excellent thermal design for today's critical airborne and telemetry applications. This reliable antenna provides MIL-Spec quality and environmental capability, as well as being able to measure down range tracking. Weight is only 2 grams. Applications include smart munitions, unmanned aerial vehicles, and missiles.

Specifications

Diameter:	1.40" dia x .10"
Antenna:	Nose mountable antenna allows inbore measurement of gun launch event, as well as down range tracking.
Center Frequency:	2255.5 MHz
Impedance:	50 ohms
